

City Of Hitchcock

ADOPTED BUDGET

FY 2021

NOTICE ABOUT THIS BUDGET

As required by section 102.007d of the Texas Local Government Code, the City of Hitchcock is providing the following statement:

This budget will raise less revenue from property taxes than last year's budget by an amount of \$443,894.00 which is an 18.72% decrease from last year's budget. The property tax revenue to be raised from new property added to the tax roll this year is \$74,007.00.

Adopted revenue increase will support maintenance and operations in the City's General Fund for essential City service.

Total debt obligation for the City of Hitchcock secured by property taxes: \$0.

TAX RATE	FY 2020	FY 2021
Property Tax Rate	\$0.585	\$0.55013
No New Revenue Tax Rate	\$0.443033	\$0.526194
Voter Approved Tax Rate	\$0.550131	\$0.550131

Office of the City Administrator

City of Hitchcock
7423 Highway 6
Hitchcock, Texas 77563
(409) 986-5591

August 7, 2020

Honorable Mayor and Members of City Commission
City of Hitchcock, Texas

Re: Fiscal Year 2020/2021 Adopted Annual Budget

It is my pleasure to present the City's 2020/2021 Adopted Annual Budget, for the fiscal year commencing October 1, 2020 and concluding September 30, 2021. Despite the economic uncertainty caused by the COVID-19 global pandemic, this budget is balanced as required by law, and meets the Commission's core values of being fiscally conservative, while providing services in an effective and efficient manner.

In response to the pandemic, our City services continue to operate, and the City is "Open", but in different ways since March and likely for the foreseeable future. The uncertain times ahead impact operations and budgets. As the situation evolves so must we. So far, the City has not experienced drastic budget reductions, largely due to a combination of early action, conservative budgeting and continuous monitoring of revenues and expenditures. This year we acted to increase cash reserves which will give us the flexibility in the form of additional fund balance for future needs.

It also addresses opportunities for additional improvements emphasizing public safety and public improvements. As the City's financial and spending plan for the fiscal year, the adoption of the budget is one of the most important actions taken by the City Commission. With each budget cycle the City continues to address the challenges of providing services with limited resources.

This budget is a balanced and conservative plan that repositions the City, as an organization, addressing current as well as future needs. Presently, the City needs to plan to make major public improvements to address the expectations of current and prospective residents of the City. As we grow as a community, the City needs to position itself to address growth, by tweaking the organizational structure when and where needed; by modest increases in personnel, when necessary, and by replacing old, worn out equipment and infrastructure.

Every effort has been made within the Adopted Budget to allocate resources in a manner that enables the effective and sound delivery of municipal services.

I. Budget Document

This Budget continues the effort to create fiscal transparency by displaying the cost of public services and offering an overview of the revenues, expenditures/expenses, and change in fund balances of all City funds. The budget process involved an extensive review of every department's budget, line-item-by-line-item, to submit a balanced budget for your consideration. Each significant fund/department summary includes the prior year's budget, the current budget with current year's estimates, the Adopted budget, and the budget change. Each department worked to find savings in its operating budgets and made recommendations for program improvements and reductions.

II. Adopted Organizational Changes

To further enhance the City organization, we continue the process of reorganizing the City to improve accountability, efficiency, and effectiveness, through the reclassification of several positions: the reclassification of a part time street and drainage position to full time, the reclassification of a vacant full-time position to a part-time in take position in Community Development and, the reclassification of a full-time vacant position to a part-time Finance Clerk position for the Finance Department. Additionally, the budget includes funding for one new position, Traffic Patrol Officer to increase patrol of our roadways. These positions will further enhance the City organization's ability to adapt and implement efficient and effective programs and services. Also included in the budget is the transitioning of the 911 Emergency Dispatch function to Galveston County through an interlocal agreement.

The Adopted budget also includes an updated city pay plan with salary ranges for each job title. The salary ranges are based on whole job ranking and market survey work performed in-house, with an analysis for existing job duties and pay rates. The classification system attempts to establish a pay structure that maintains equity within the organization while increasing our ability to manage pay decisions to retain and recruit employees.

III. General Fund

The FY 2020/2021 Adopted Budget includes \$1,926,880 in maintenance and operations support for the General Fund from property taxes.

The recommended FY 2020/2021 Adopted Budget is based upon the City adopting the voter approved tax rate of \$0.550131 cents per \$100 of assessed valuation, a decrease of 5.96% from the City's proceeding year's tax rate of \$0.585. The average taxable value of a residential homestead this year is \$144,989. If the City Commission adopts the voter approved tax rate of \$0.550131 per \$100 of taxable value, the amount of tax imposed on the average homestead would be \$797.63, which works out to a daily cost of \$2.18 for city services.

The General Fund revenues and expenditures for FY 2020/2021 are projected to decrease. General Fund revenues projected for the next fiscal year are \$5,582,044 a decrease of 0.12% with expenditures of \$5,144,787 a decrease of 2.07%. The projected fund balance at the end of FY 2020/2021 is \$5,286,192 for the General Fund.

Solid Waste fees have not increased since March 2015. However, with the extension of the solid waste contract with Ameriwest, rates will increase from \$12.45 to \$15.70 for residential customers and \$25.23 to \$29.20 for commercial accounts. Residential services will continue twice a week waste collection and monthly curbside loose brush pickup. Bulky Waste will be picked up quarterly for a more effective delivery of services, and Spring and Fall cleanup will continue.

General Fund Highlights:

- Allocation of \$420,000 for street rehabilitation projects to include mill and overlay of Jackson, Neville and Bulldog and base reconstruction of Hacker and Burns;
- Allocation of \$50,000 for drainage improvements;
- Allocation of \$30,000 for a CDBG-MIT grant match;
- Allocation of \$78,391 for the annual lease payment for street & drainage equipment;
- Allocation of \$96,704 for 6- month funding of one additional police patrol officer position, equipment, and vehicle to increase traffic control along our highways;
- Allocation of \$214,431 for an interlocal agreement with the County to perform Emergency 911 Dispatch services and a decrease of \$273,878 in personnel and overtime costs in the police department budget;
- Allocation of \$52,339 for the annual lease payment for police vehicles and equipment purchased in FY 2020;
- Allocation of \$47,000 for City Hall building improvements;
- Reclassification of a part-time Street & Drainage worker to a full-time position, a net increase of \$9,336;
- Reclassification of a vacant full-time position to a part-time in-take position in the Community Development Department, a net decrease of \$43,263; and
- Maintains continued funding of \$75,000 for the EMS Services contract; \$92,400 for the Volunteer Fire Department; and, \$97,200 contribution to the Library.

IV. Utility Fund

Adopted Utility Fund revenues and expenses for FY 2020/2021 are projected at \$3,603,171 and \$4,506,480, respectively. Funding for projects that were deferred in FY 2020 were rolled into the fund balance. \$903,309 of fund balance will be utilized to carry forward the funding to FY 2021.

Last year the City adopted the five year utility rate structure developed and recommended by our utility rate consultant to ensure that water and wastewater rates would fund operations, capital improvements, and future debt service and to ensure that each service is operating at a self-sustaining basis. The second year of the rate increases for water and wastewater are incorporated in the budget and will provide adequate revenues to meet the systems operation and maintenance expenses, while providing necessary funds for system capital improvements.

Utility Fund Highlights:

- Allocation of \$385,000 to recoat the Neville Street elevated storage tank;
- Allocation of \$200,000 for Inflow and Infiltration (I&I) Assessment;
- Allocation of \$50,000 to rehab the Redfish elevated storage tank;
- Allocation of \$165,000 to upgrade the MLK water tower;
- Allocation of \$35,000 for a Corrosion Control Study to meet TCEQ requirements;
- Allocation of \$185,000 to replace 5 booster pumps at the Neville Street water plant;
- Allocation of \$35,000 for SCADA water system improvements;
- Allocation of \$35,000 to replace 3-12" gate valves at Neville water plant;
- Allocation of \$169,000 to upgrade automated bar screen and wash;
- Allocation of \$160,000 to rehab the stormwater clarifier,
- Allocation of \$150,000 for the Travis/Neville 8' Sanitary Sewer Project;
- Allocation of \$36,000 to upgrade lift station controls and electrical repairs;
- Allocation of \$58,944 for the lease purchase payment for water and sewer equipment;
- Allocation of \$60,000 for SCADA improvements at two (2) lift stations;
- Allocation of \$35,000 to conduct a study for the development of impact fees;
- Allocation of \$50,000 to rehab two (2) manholes at the WWTP; and
- Reclassification of full-time vacant position to part-time Finance Clerk, a net decrease of \$27,253.

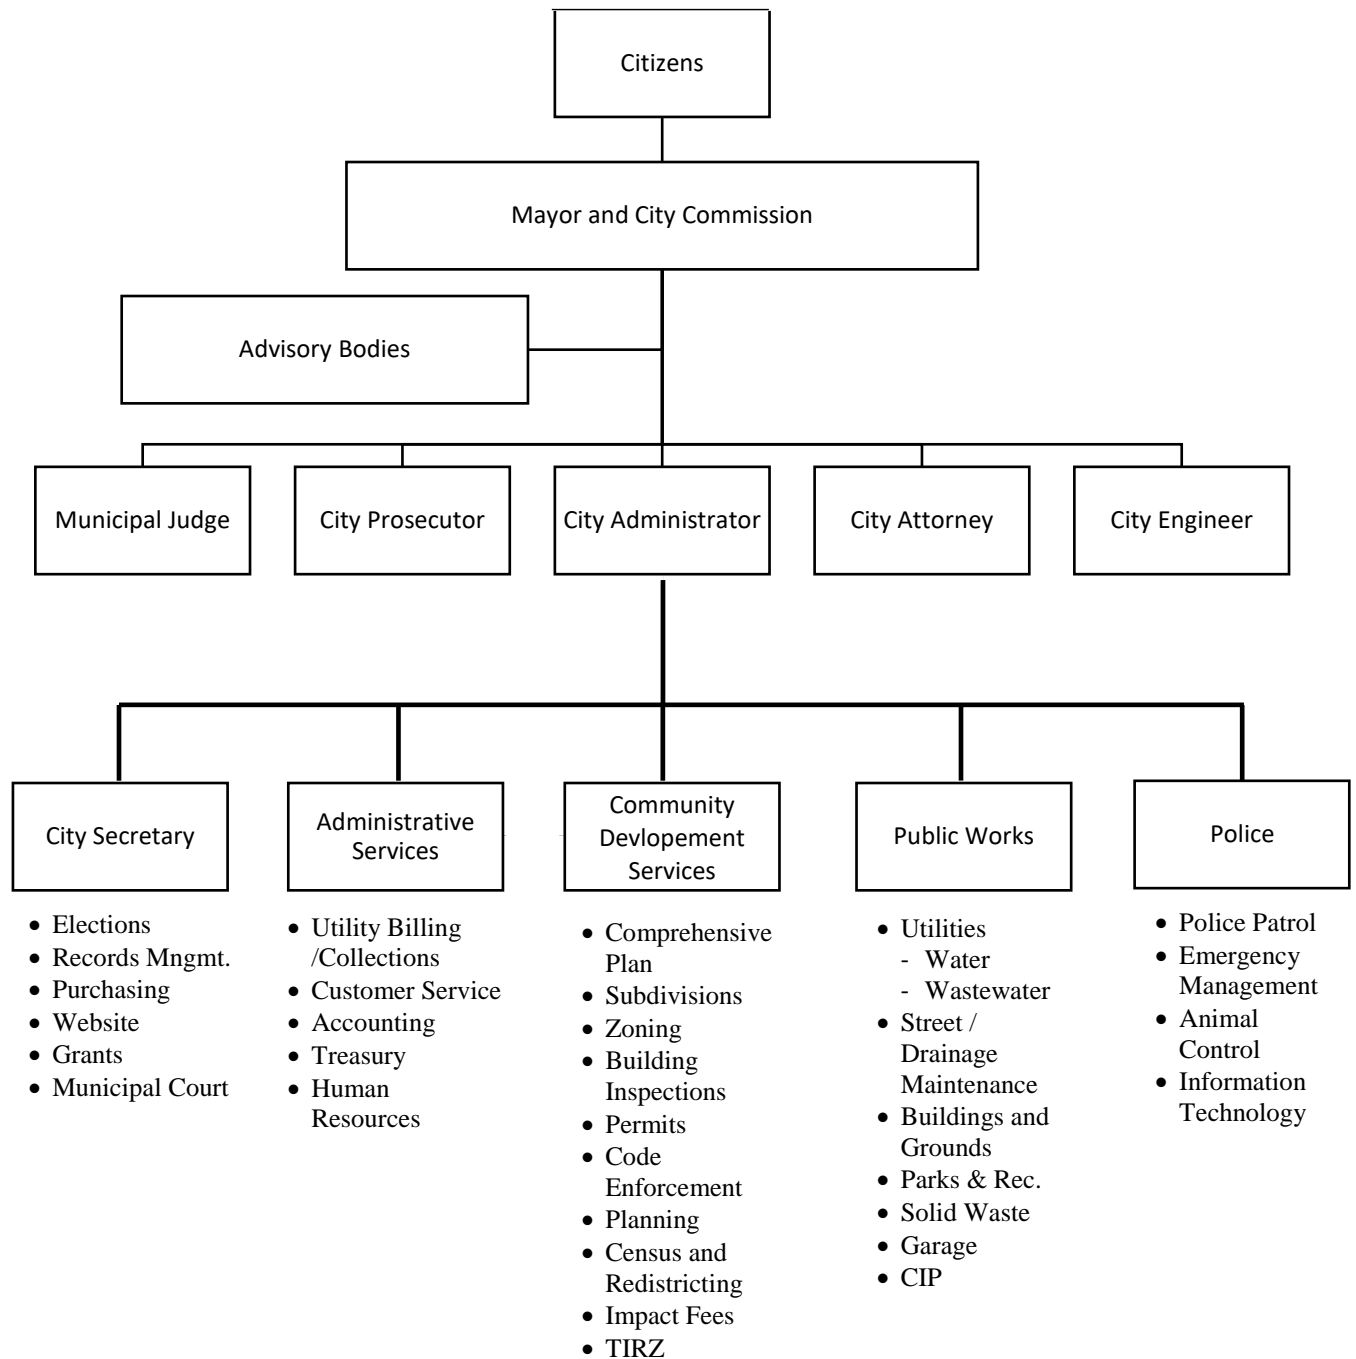

In closing, I want to thank each of the Members of the City Commission for their budget guidance and input, as well as the Department Directors, and all the City employees that contributed towards the development of the FY 2020/2021 Adopted Annual Budget. I also want to extend special compliments to Ruth Ann Sorrell for her contribution in putting the budget document together. We believe that this Adopted budget is realistic, attainable, and cost-effectively meets the existing level of service which we have been directed to provide and which our citizens expect. The budget will be monitored closely, as to the performance of revenues and compliance with appropriation limits, with monthly reports provided to management and monitored by all departmental directors.

Respectfully Submitted,

Marie Gelles
City Administrator

Glossary

Glossary

The budget contains specialized and technical terminology that is unique to public finance and budgeting.

Accounting Basis: The basis of accounting under which transactions are recognized and reported. The City employs the modified accrual basis of accounting. This means that revenues are recognized in the accounting period in which they become available and measurable and expenditures are recognized in the accounting period in which the fund liability is incurred.

Ad Valorem Tax: The tax is based “according to value” of property and is used as the source of revenue to pay general obligation debt and to support the General Fund.

Assessed Valuation: A value that is established for real and personal property for use as a basis for levying property taxes. The assessed valuation represents the appraised valuation less any exemptions. Property values are established by the Medina Appraisal District.

Balanced Budget: A budget in which planned expenditures can be met by current income from taxation and other government receipts.

Bond: A debt instrument embodying a written promise to pay a specified sum of money, the face value or principal, at a specific date or dates in the future (maturity date) together with periodic interest at a specified rate. Bonds are typically used for long-term debt to pay for specific capital expenditures, such as buildings, streets, or utility expansion/repair.

Budget: A budget is a plan of financial operation embodying an estimate of Adopted expenditures and the means of financing them for a single fiscal year.

Budget Adjustments: A legal procedure utilized during the fiscal year by the City staff and City Council to revise a budget appropriation. City staff has the prerogative to adjust expenditures within a department budget.

Budget Document: The instrument used by the budget-making authority to present a comprehensive financial program to the City Council. The ADOPTED budget document presents the authorization made by the City Council for City Officials to obligate and expend resources.

Budget Ordinance: The official enactment by the City Council that establishes legal authority for the City Officials to obligate and expend resources.

Budgetary Control: The control of management of a governmental unit or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of available appropriations and available revenues.

Capital Outlay: The portion of the annual operating budget that appropriates funds for the purpose of capital equipment needs. The Capital Outlay Budget includes funds for capital equipment purchases such as vehicles, furniture, machinery, building improvements, computers, and special tools, which are usually distinguished from operating items according to their value and projected useful life. The City's current capitalization policy requires expenditures to be at least \$5,000 with the asset having a useful life in excess of two (2) years.

Capital Improvement Program (CIP): A plan for capital expenditures to be incurred each year over a period of five future years setting forth each capital project, scope of work, the amount to be expended in each year and the method of financing those expenditures, to provide long-lasting physical improvements.¹¹⁷

Chart of Accounts: A chart detailing the system of general ledger accounts.

City Administrator: The individual appointed by the City Council who is responsible for the administration of the affairs of the City.

Commodities: Items of expenditures which, after use, are consumed or show a material change in their physical condition, and which, are generally of limited value and are characterized by rapid depreciation. Office supplies and motor fuel are examples of commodities.

Contingency: A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted.

Contractual Services: Goods and services acquired under contract the City receives from an internal service fund or an outside company. Professional services, utilities, rentals, and insurance are examples of contractual services,

Current Taxes: Taxes that are levied and due within one year.

Debt Service Fund: Accounts for the accumulation of ad valorem taxes collected for the purpose of paying principal and interest on long term debt, certificates of obligation and short term contractual obligation certificates.

Debt Service: The City's obligation to pay the principal and interest of all outstanding debt instruments according to a predetermined payment schedule.

Deficit: A deficit is the excess of expenditures over revenues during a single accounting period.

Delinquent Taxes: Taxes remaining unpaid on and after the date on which a penalty for non-payment is imposed.

Department: A major administrative division of the City that indicates overall management responsibility for an operation or a group of related operations within a functional area.

Disbursement: Payment for goods and services in cash or by check.

Effective Tax Rate: That tax rate which will generate the same amount of tax revenue next year from the properties on this year's tax rolls.

Encumbrance: Obligation in the form of a purchase order, contract, or salary commitment which is chargeable to appropriations and for which a part of the appropriation is reserved. When paid, the encumbrance is liquidated.

Enterprise Fund: A government accounting fund used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is to recover the cost of providing goods through user fees. Rate schedules for these services are established to ensure that revenues are adequate to meet all necessary expenditures.

Estimate: The estimated actual expenditures and revenues for the fiscal year prior to the budget fiscal year.

Estimated Revenues: The amount of projected revenue to be collected during the fiscal year. It may be also defined to finance the Adopted projected expenditures.

Expenditure: Decrease in the use of net financial resources for the purpose of acquiring and providing goods and services.

Expenditure Group: A grouping of similar expenditures used to exercise budgetary control. For example, the Personnel Services expenditure group includes salaries, Social Security, Medicare, retirement, group health insurance, group life insurance, and workers compensation.

Expenses: Outflows or other using up of assets or incurring of liabilities during a period from delivering or producing goods, rendering services, or carrying out other activities that constitute the entity's ongoing major or central operations.

Fiscal Year: The 12-month time period designated by the City signifying the beginning and ending period for recording financial transactions. The City's fiscal year is October 1st to September 30th.

Fixed Asset: Assets of a long-term nature that are intended to continue to be held or used, such as land, buildings, machinery, furniture, and other equipment.

Full Time-Equivalent (FTE): Full time, authorized positions, filled or vacant, that equal to 2,080 hours of work annually.

Fund: An independent fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial sources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations.

Fund Balance: The difference between a fund's assets and liabilities.

Generally Accepted Accounting Principles (GAAP): Uniform minimum standards of and guidelines to financial accounting and reporting.

General Fund: The General Fund accounts for all financial resources of the government except for those required to be accounted for in another fund. General Fund revenues include property taxes, licenses and permits, service charges, and other types of revenue. The fund includes the basic operating services such as police, finance, community development, parks & recreation, pool, library, public works, and general administration.

General Ledger: A listing of the various accounts necessary to reflect the financial position and results of operation of government.

Interfund Transfers: Amounts transferred from one fund to another.

Modified Accrual Accounting: A basis of accounting in which revenues should be recognized in the accounting period in which they become available and measurable and expenditures are recorded in the period that they are incurred.

No-New-Revenue Tax Rate: This tax rate enable the public to evaluate the relationship between taxes from the prior year and the current year, based on a tax rate that would produce the same amount of taxed is applied to the same properties taxed in both years.

Non-Recurring Revenue: Revenue recognized by the City that are unique and occur one time or without pattern.

Operating Budget: The portion of the budget that pertains to daily operations that provide basic services for the fiscal year. The operating budget contains appropriations for such expenditures as personnel, supplies, utilities, materials, travel, and fuel and the Adopted means of financing them.

Personal Services: All cost related to compensating employees of the City including employee benefit costs such as City contribution for retirement, social security, and health and life insurance.

Program Improvement: A program improvement is the addition of new equipment, personnel or other expenditures aimed at improving the level of service or expanding services.

Property Tax Rate: The property tax rate consists of two elements. The first is the maintenance and operation rate. Revenues received from this element are deposited in the General Fund and can be used for any public purpose. The maintenance and operation rate is subject to the provisions of state statute and an increase in the effective rate excess of 8% is subject to a voter initiated rollback election. The second element is the debt service rate. The rate is set based on the City's debt service requirements. Funds received from this rate are deposited in the Debt Service Fund and are used solely to pay the principal and interest on present and projected debt.

Resources: Total dollars available for appropriations including estimated revenues, fund transfers, and beginning fund balances.

Revenue Estimate: An estimate of how much revenue will be earned from a specific revenue source for some future specific period; typically, a future fiscal year.

Shortfall: The excess of expenditures over revenues during a single accounting period.

Special revenue Fund: A fund used to account for revenues and expenditures that have been earmarked for special activities.

Surplus: A surplus is the amount by which revenues exceed outlays.

Tax Levy: The total amount of funds to be raised by general property taxes for operating and debt service purposes specified in the Annual Tax Ordinance.

Tax Rate: The amount of tax levied for each \$100 of assessed valuation.

Tax Rate Limit: The maximum legal property tax rate at which a municipality may levy a tax

Voter-Approval Tax Rate: Tax rate that is calculated at the maximum rate allowed by law without voter approval
